To Our Friends in the Hardware Trade

For sixty years the tools made by BUCK BROTHERS have had the reputation among the Woodworkers of the United States as being the best tools manufactured. We thank our many friends for their continued patronage; and it is our determination now, as ever, to make Tools that need no recommendation to sell them—their own well-known character being sufficient.

There is no secret to our success in producing a good article—we make it our rule to buy the best material to be found in the market—we employ the most skilled workmen, and give a constant personal supervision to the business, which we thoroughly understand.

For the past twenty years our terms and prices have not materially changed—although the high grade of English Cast Steel has advanced and the cost of skilled labor increased.

Some persons may express surprise that our Tools are somewhat higher in price than other manufacturers'—constant use has proved them to be the *cheapest to the man who earns his living by their use*, as they will hold a fine cutting edge longer than other tools.

We keep on hand in our Warehouse the largest assortment of Chisels, Gouges, etc., to be found and we make it our pleasure to oblige our many friends by filling their orders with promptness.

We trust that our many friends who may order our goods from jobbers or wholesale dealers will make sure that they get those stamped BUCK BROTHERS and boxes labeled with our trade mark—

Very truly yours,
BUCK BROTHERS.

TERMS CASH

All our bills are net cash—are due thirty days after date—and subject to sight draft at the end of sixty days. All goods at purchaser's risk after shipment. Goods delivered at Railroad Station or Express Office in Millbury or Worcester. We make no charge for packing cases.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

Between sizes same price as next size larger.

CONDITIONS OF WARRANTY

All our goods are warranted perfect, and we will REPLACE any that may prove defective in material or manufacture, but this does not cover tools that have been damaged by MISUSE or CARELESSNESS. If a tool is broken where the steel is sound, it will be considered as done by harsh usage, and *will not be exchanged.*

 Do not condemn the cutting qualities of a tool until it has been ground more than once. Where the temper of tools has been drawn on a solid emery wheel, we will put them in good condition free of charge, but we cannot be expected to replace them with new tools. We hope dealers will see that the warrant is not abused by those in their employ. Too often a good tool is returned by an incompetent mechanic who lacks the skill to keep his tools in order, and knowing how easily he can obtain a new one by just making a few snips in the tool, takes it back to the hardware merchant and complains that it is too hard, etc., whereas if the tool was reground it would prove to be a good one.

It cannot be expected that we should replace tools that are worn out. The *stamped* part of tool should be returned and not a broken piece.

Perfect goods cannot be returned or exchanged except by mutual agreement, and we invariably charge for putting them in marketable condition.

The 1 inch measures $8\frac{1}{2}$ inches long from bolster to point

For many years we have paid particular attention to the requirements of Pattern-makers, and our sixty years' experience enables us to produce Paring Gouges which have become universally popular among the most skilled Woodworkers.

To facilitate the selection of the sweeps of Gouges, we have fully illustrated on the opposite page approximate sweeps of all the sizes usually kept in stock.

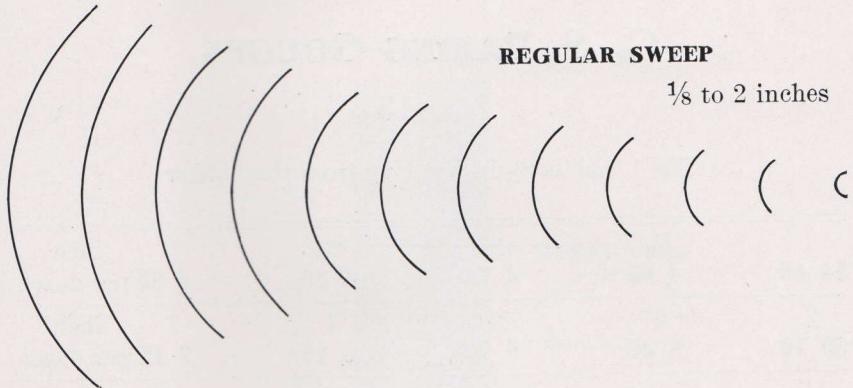

Attention is called to—

C. S. Paring Gouges, No. 13, page 28.

Handled and Sharp Paring Gouges, No. 14, page 30.

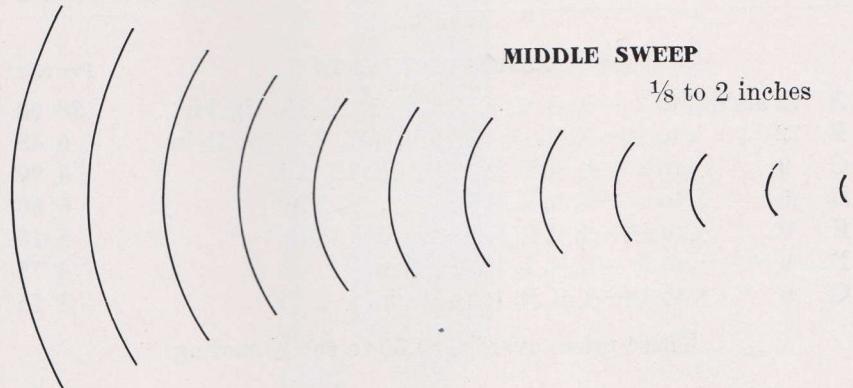

Bent Shank Paring Gouges, No. 15½, page 34.

If ground sharp, we charge 50 cts. extra per dozen, net cash
Packed in $\frac{1}{2}$ dozens

We make and keep on hand three different Circles or Sweeps, viz.: Regular, Middle and Flat Sweep. Customers are particularly requested to name the Sweep wanted when ordering these Gouges. Any tools selected to fit circles or impressions will be charged 35 per cent. extra to these prices.

We never bevel these Socket Paring Gouges on the outside.
